ITALY.

LIST OF ARTICLES THE EXPORTATION OF WHICH IS PROHIBITED.

December 6, 1915.

NOTES.

(1) *Re-exportation.*—The prohibition of exportation covers re-exportation from warehouse or in discharge of "temporary admission" permits.—*Decree of August 6, 1914.*

(2) *Transit.*—Merchandise, the exportation of which is prohibited, cannot be re-exported to foreign countries under process of transit or transhipment if it has arrived in an Italian port with bills of lading indicating Italy as the original destination, or if there is no clear indication of destination. For this purpose, consignments provided with bills of lading "to order," not indicating by name a foreign (non-Italian) destination, and those having only bills of lading "to bearer," will be considered as destined for the internal use of the State (*i.e.*, in Italy).—*Decree of November 13, 1914.*

(3) A Royal Decree of the 1st August 1914, provided that *exceptions* to the prohibitions of export may be made by the Minister of Finance with the approval of the President of the Council of Ministers and of the Minister of Agriculture, Industry and Commerce, and a further Decree of the 24th November 1914, established a Consultative Committee at the Ministry of Finance, one of the functions of which is to report on such applications for exemptions from prohibitions of exportation as may be submitted for their examination by the Ministry of Finance.

In virtue of a decree of the 15th September 1915, when goods which are, in principle, prohibited to be exported are allowed to be exported under license, a special "concession" tax is levied. Details respecting this tax are given in the notice on pages 47—48 of the "Board of Trade Journal" for the 7th October.

(4) *Exportation to Switzerland.*—By special agreement with Switzerland, dated the 8th May 1915, the Italian Government permit the exportation to Switzerland, for consumption therein of the following articles, *viz.*:—(a) *slaughtered livestock*, 409 head per month; (b) *pigs*, 1,200 per month; (c) *salt meat* (*salami*), *including hams*, up to 110,000 kilog. per month; (d) *geese, turkeys, ducks, pigeons, poultry, woodcocks, game*, up to 100,000 kilog. per month; (e) *fresh fish* (to any quantity); (f) *preserved fish*, 10,000 kilog. per month; (g) *preserves of fruit and vegetables* 10,000 kilog. per month; (h) *preserves of "pomodori"* (to any quantity); (i) *herbs and kitchen-garden plants* (to any quantity); (j) *tanning extracts*, 50,000 kilog. per month; (k) *oakbark*, up to 10,000 kilog. per month; (l) *iron pyrites*, 3,000 metric tons per month; (m) *eggs*, 200,000 kilog. per month; (n) *coffee* (to any quantity); (o) *rice chaff*, 100,000 kilog. per month; (p) *hemp* (in quantities to be fixed).

(5) A Royal Decree of the 10th June, 1915, prohibited the exportation of *articles made wholly or in part from raw material of which the exportation is prohibited or from the products of such materials.* His Majesty's Ambassador at Rome reported on the 4th July that the Italian Minister of Finance had issued to the Italian Customs authorities explanatory instructions with regard to this Decree, from which it appears that, while the absolute prohibition of exportation of all products and manufactures which can serve for military equipment (imposed by the Royal Decree of the 1st August, 1914) still remains in force, the Customs authorities are on their own initiative to apply the regulations contained in the Decree of the 10th June to the products or manufactures which come under the following categories:—

1. Goods of all kinds manufactured with *metals* of which the export is prohibited (*e.g.*, copper, tin, zinc., etc.);
2. Articles made with *gutta-percha* and *indiarubber*;
3. Newspaper paper in rolls;
4. *Medicines and chemical products* any of the ingredients of which are materials of which the export is prohibited, or such products which are in any way prepared by the use of prohibited materials;
5. Products made from *mineral oils, fats, soaps, and fatty and lubricating materials*;
6. *Colouring material* containing aniline colours and salts.

As necessity arises, the Ministry of Finance will issue instructions to the Customs in regard to goods which are not comprised in the above-mentioned categories, but in regard to which it is considered necessary to apply the principles of the Decree of the 10th June.

(6) *Liquid fuels: Transport by Sea, etc.*—A Decree of the Lieutenant-General, dated the 18th July, 1915, lays down regulations governing the transport of liquid fuels by sea, and providing for Government supervision in respect of stocks of such materials.

Article 1 of the Decree prohibited until further notice the carriage from the ports, roadsteads, and territorial waters of Italy, of the Italian Colonies, and of the territories occupied by Italy, in any ship, boat, steamer, or other craft, under any flag, of the following goods, however prepared or packed, *viz.*, vegetable oils, animal oils, crude and distilled mineral oils, naphtha, petroleum of all kinds, benzine (petrol) nitro-benzine, alcohol, and, in general, all essences (*essenze*) capable of being used in motors. No restriction, however, is imposed on the exportation of vegetable oils, so far as such export had been duly authorised in accordance with the regulations in force.

Certain modifications of this general prohibition are provided for in Articles 2 and 3 (coastwise carriage, replenishing of stocks in Colonies, etc.).

Articles 4—7 of the Decree deal with the measures taken to obtain information as to stocks of liquid fuel, and the measures of surveillance in respect of such stocks.

* No further licenses can at present be granted for the exportation of chestnuts [30-10-15.]

† This prohibition was imposed by Royal Decree of the 1st August, 1914. According to a Customs Circular of the 8th August, 1914, it does not apply to tissues of all kinds for women's clothing, fancy stuffs for men's clothing, silk tissues, velvets, plushes, printed cotton tissues, and such coloured cotton tissues as cannot be used for military clothing. On the other hand, bleached or unbleached cotton tissues suitable for the manufacture of men's body linen or bed linen, cloths for military uniforms, tissues for tents, sacks, and tissues for making them, packing cloth of all kinds, and articles of body linen and knitted wares which can be used for military purposes are prohibited to be exported.

His Majesty's Ambassador at Rome reported on the 23rd August, 1915, that the Italian Government have issued instructions to the competent authorities to prohibit the exportation of all woollen manufactures other than light woollen cloths weighing less than 400 grammes per square metre, tissues for embroidery, and fine hosiery of combed wool. The exportation of these goods is permitted only to Allied countries and to countries situated beyond the Straits of Gibraltar and the Suez Canal.

According to a notice published on the 6th September, 1915, the exportation from Italy of cotton yarns of all kinds and of cotton tissues which are non-waterproof and not used for military purposes, may be sanctioned by the Italian Customs authorities if the goods are destined for Allied countries, America, or the countries beyond the Suez Canal. The exportation of waterproof tissues and tissues adapted for military purposes may, in exceptional cases, be allowed by the competent Ministry upon presentation of a formal application, subject to the restrictions laid down with regard to the place of destination.

‡ The exportation of coffee lying in free deposit has been authorised up to 15 per cent of the amounts now stored, and to 50 per cent of any future quantities deposited.—(*October* 23, 1914.)

As regards the exportation of coffee to Switzerland, *see* Note on page 219.

§ His Majesty's Ambassador at Rome reported on the 9th October 1915, that the Italian Government have agreed to allow, in principle, the export of eggs to the United Kingdom, subject to local (Italian) requirements. Applications from Italian exporters for export licenses, which are supported by His Majesty's Embassy at Rome, will therefore be favourably considered by the Italian Government.

FRANCE (AND ALGERIA).

LIST OF ARTICLES THE EXPORTATION OF WHICH IS PROHIBITED.

December 24, 1915.

NOTES.

By a series of Presidental Decrees,§ the exportation and re-exportation (after warehousing, transit, or transhipment) from France of the articles mentioned in the list on pages 2-12 has been prohibited. The prohibition so imposed are also applicable in Algeria. The Decrees imposing these prohibitions, however, provide that exemptions therefrom may be accorded under conditions to be laid down by the Ministry of Finance, and applications for such exemptions are dealt with by the "Commission Interministérielle des dérogations aux prohibitions de sortie."

Exportation to Allied Countries, etc.—By a series of Ministerial Decrees the prohibition of the exportation and re-exportation of a number of articles has been abrogated, so far as concerns consignments which are destined for the United Kingdom, the British Dominions, Colonies, and Protectorates (including Egypt), the uninvaded territory of Belgium, Japan, Montenegro, Russia,‖ Servia,‖ or American countries; and according to a decision of the 16th
